sloth is the most
urgent of passions.
Sam Beckett

At every sound speaking of life he seemed to himself to be huge and unveiled and he hugged himself together all the tighter and silently groaned - neither in voice nor in thought - that the day might not come so that he might always lie under a heap of rags without movement or thought."

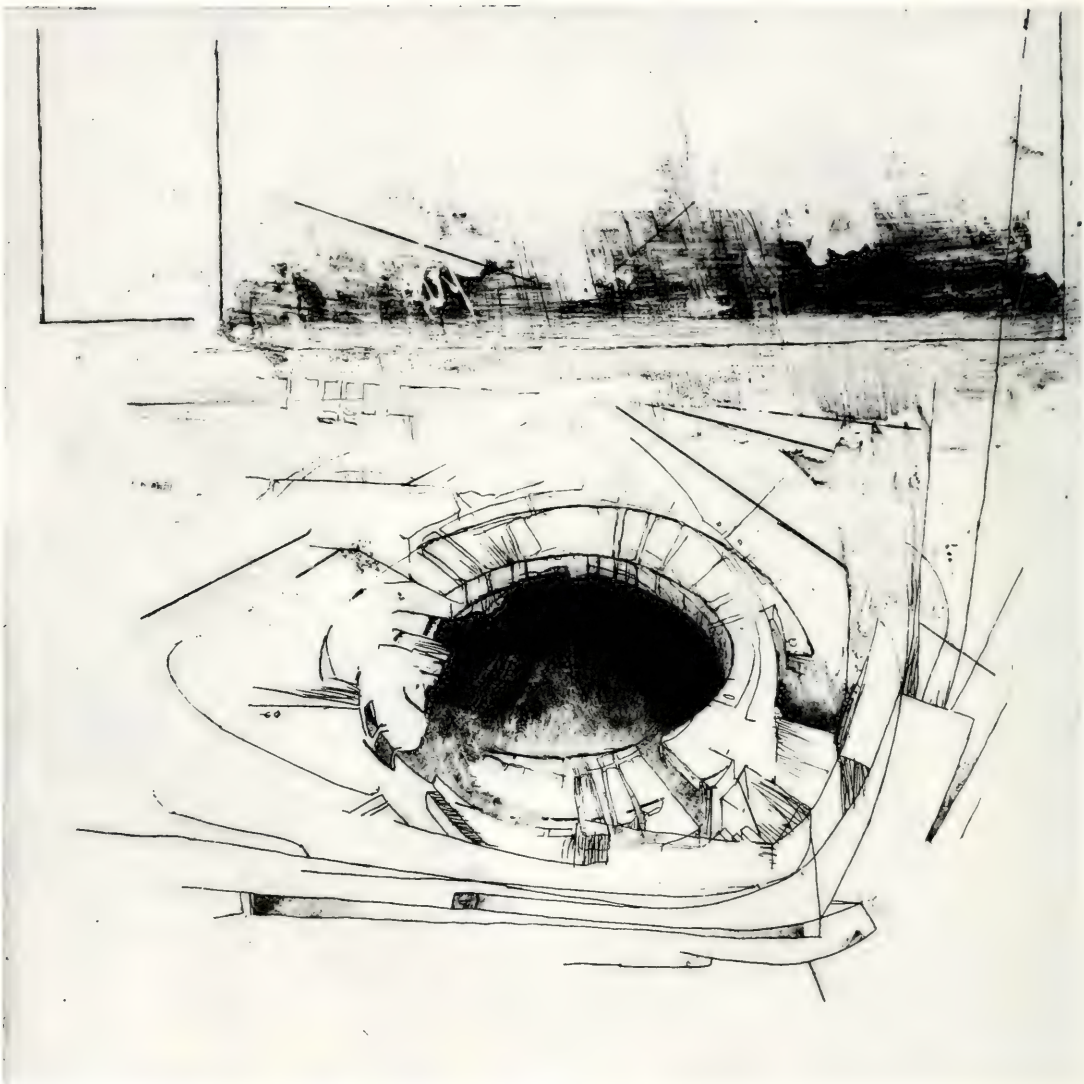
An intimate personal power is developing
in place of the old formal ones – a power
of the individual to conduct his own education,
find his own inspiration shape his own
environment, and above all, share these adventures.

In the old days when I was so poor,
Night after Night I counted other men's wealth.
Recently I thought it over
And decided to open a business of my own
I dug a hole and found hidden treasure —
A store of crystal jewels,
A blue-eyed foreigner came in secret
And wanted to buy them and take them away,
But I only answered him,
"These jewels are beyond any price."



what this country needs is sanity.
Individual sanity.
And all the rest will come true.

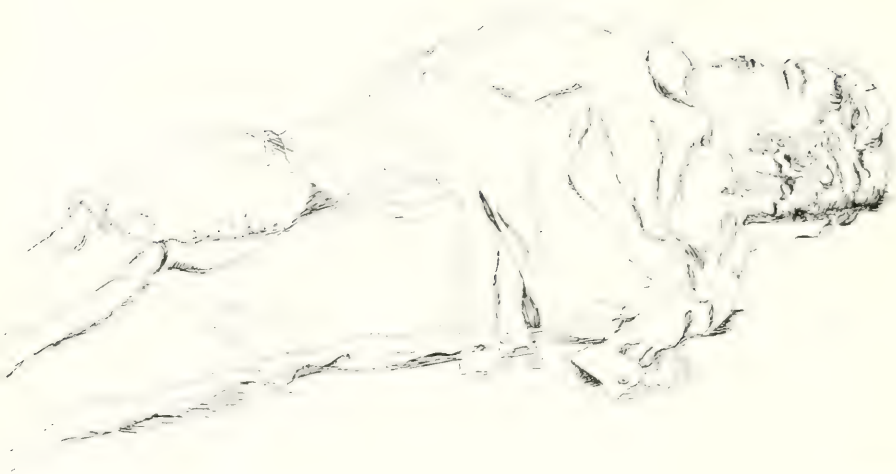
MUSIC



A SILENT DRUMMER
IS THE RAIN

It surprises people when you tell them that since the ice age three quarters of the earth has been water, and of the one quarter that is land very little has been lived on. Ninety-Nine percent of humanity has lived upon only about five per cent of the earth, and anyone who went outside of it - the tiny minority that went to sea, for example - immediately found himself outside of the law. And the whole development of technology has been in the outlaw area, where you're dealing with the toughness of nature.

I find this fascinating and utterly true. All improvement has to be made in the outlaw area. You can't reform man, and you can't improve his situation where he is. But when you've made things so good out there in the outlaw area that they can't help being recognized, then gradually they get assimilated.

November 4, 1971

To All Members of the College Community:

Please be informed that at its meeting held this morning the Board of Trustees, after careful consultation and consideration, voted unanimously to change the name of

FLORIDA PRESBYTERIAN COLLEGE
to
ECKERD COLLEGE
effective July 1, 1972

On behalf of the Board, let me emphasize in the strongest possible terms that the basic nature of the college will remain unchanged. The Board reaffirmed its commitment to continue to develop one of the truly distinguished undergraduate, liberal arts colleges in America.

Sincerely,

Charles M. McArthur

The relationship of a being to a place
is the cornerstone of every value and virtue,
in that it determines the worth of life
and love and art.
Consciousness will allow only one
I - It demand.
It is astonishing that places, too, make
their demands; that a place too, may say
that only those worthy may have me.

An intimate personal power is developing

Progressive Colleges ?

Do you know of someplace I can write which would send me a list of progressive colleges around the United States ? I would greatly appreciate it greatly if you would send me some addresses that you know of where I might be able to obtain such information ?

Thank you very much
